

## 2<sup>nd</sup> Metaverse Poster Presentation Guidelines

Dear Poster Presenters,

Greetings from the NEUTRINO 2022 Secretariat.

To ensure a smooth poster presentation, we are sending you the 2<sup>nd</sup> NEUTRINO 2022 metaverse poster presentation guidelines. Please read this carefully when you prepare for your presentation. If you have any questions regarding to the poster presentation, please contact the Secretariat (sci@neutrino2022.org).

### 1. Poster Session Information

Please check the poster session information below. Please make sure when is your poster session in your local time. Present your poster lively to people visiting your booth in a ZEP Metaverse platform during a poster session where your poster is assigned to (see an attached pdf file).

Note 2: Each poster session is divided into a and b based on the European and American times.

## 2. Precautions for the Poster Presentation

Poster presentations will proceed on a ZEP metaverse platform in a similar format to offline conferences. Please note the following things:

1. Please observe your session time (check your local time!).
2. **Please keep your seat in front of your poster for the duration of the session (90 min.) The poster committee will be walking around and reviewing the posters during the session.**
3. When participants look at your poster, please say hello, introduce yourself and ask them whether they want your explanation on your poster. If they agree, then explain it to them by sharing your poster (similar to Zoom sharing).

## 3. Slack Channel for Discussions

We will open a Slack Channel for the NEUTRINO 2022 conference. If you have any questions or want to chat, please use the Slack Channel. In addition to the poster session, you can leave questions related to the plenary talks.

We will send you an invitation to participate in the Slack Channel via email soon, so please check your mailbox. If you will be not received the email, please let us know.

## 4. Poster Exhibition Page

The poster exhibition page on the website has been open. Please check your poster and/or video. If someone leaves a comment or a question for your poster, it will be automatically delivered to your email box. Please check your spam folder from time to time.

In addition, poster submitters who submitted PDF files may not be able to check the images properly. In this case, please send the images to the Secretariat, then we can fix this problem.
